Experience with graphic design
Adaptive
Collaborative team worker
Eagerness to learn new skills

Projects

Comic Box

<https://comic-box.herokuapp.com/>

A Ruby on Rails application for organizing comic book collections by user submitted information. This is the first CRUD application I built after learning Rails.

Movie Poster Search

<https://mrscott90.github.io/MoviePosterSearch/>

A web app using the OMDB API to search for film posters. When a movie title is entered, the poster from the database is rendered on the page.

Concentration

<http://mrscott90.github.io/Concentration/>

Memory game built with Javascript using jQuery, played by flipping cards and matching them from memory to clear the board.

Work History

Newport News Shipbuilding

Newport News, Virginia

October 2008 - May 2016

Worked as a pipefitter in the construction and maintenance of aircraft carriers and submarines. Completed a four year apprenticeship and acquired a journeyman's card.

Education

Web Development Immersive

General Assembly DC

May - August 2016

Studied web development full time for 12 weeks in an immersive setting, working both independently and collaboratively to build web applications.

Newport News Shipbuilding Apprentice School

Newport News, VA

October 2008 - February 2012
